Claire C. Bennitt Watershed Fund

One of the greatest legacies we can leave for future generations is clean, safe drinking water. To do this, we need to protect the water at its source.

This is why the RWA created The Claire C. Bennitt Watershed Fund, Inc. Its mission is to protect water quality by acquiring watershed land and promoting environmental education.

These activities benefit customers by protecting the quality of their drinking water.

You can support the Fund by selecting a contribution amount and adding it to your water bill payment. All contributions are tax deductible.
